

doyley

Doyley Card

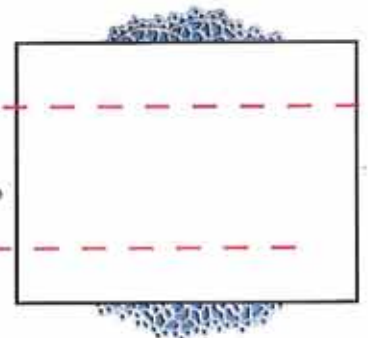

Difficulty - Easy. Some adult assistance required.

INSTRUCTIONS

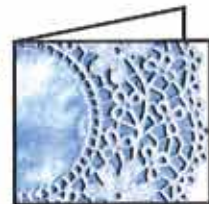

1 Glue Doyley to card - if using a glue stick, remember to dab rather than stroke. The more glue you get on the front, the more chance of dirty marks

2 When dry, decide where you want to cut the card, and mark the lines on the wrong side of the card

3 Using a stanley knife and ruler (or scissors) and trim away the excess card

4 Fold card in half and press along fold so it stays in place. All done!

ACTIVITY

Creating a card with a doyley decoration
